# A/B Test Results — Executive Summary

## Overall Retention Lift (+5.4pp)

5.13%

Overall retention lift

## Relative Lift — New Users (+23.7%)

23.7 %

Relative lift — new users

## p-value (New Users) — 0.000046 (Significant)

0.000046

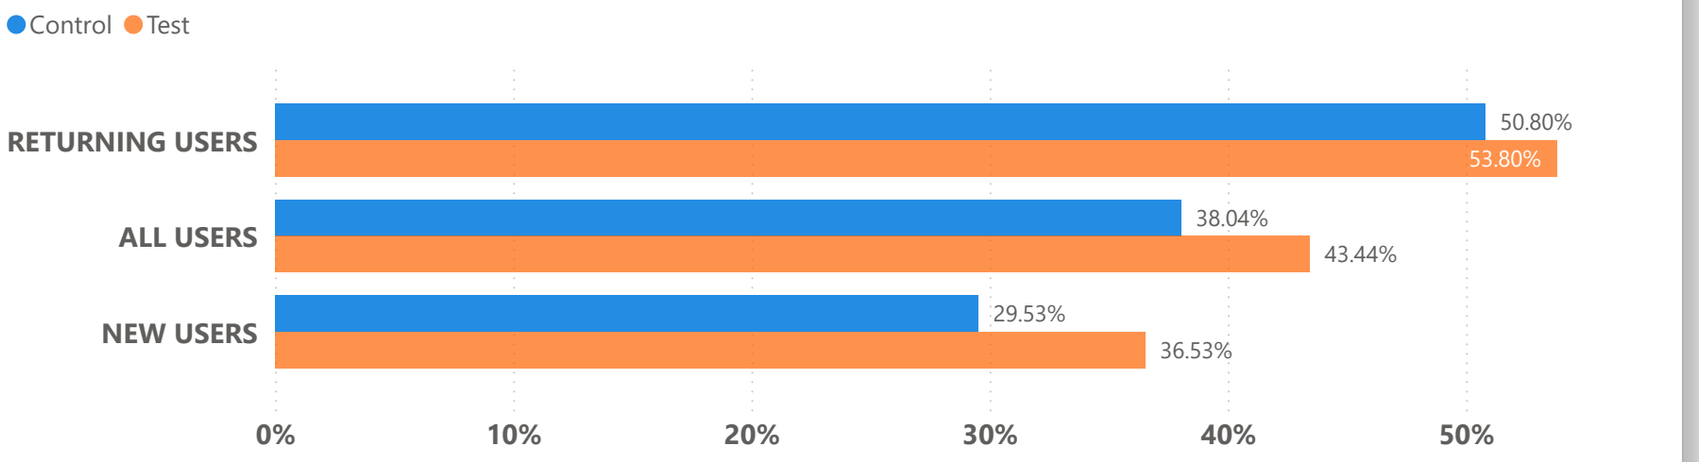
p-value — new users

New users: p = 0.000046 ✓
Significant
Returning users: p = 0.179 ✗
Not significant

*Recommendation based on chi-square test, p < 0.05 threshold*

**DECISION:**
**✓ Ship for new users**
**⚠ Iterate for returning users**

## Day-7 Retention: Test vs Control by Segment



## Chi-square stat (New Users)

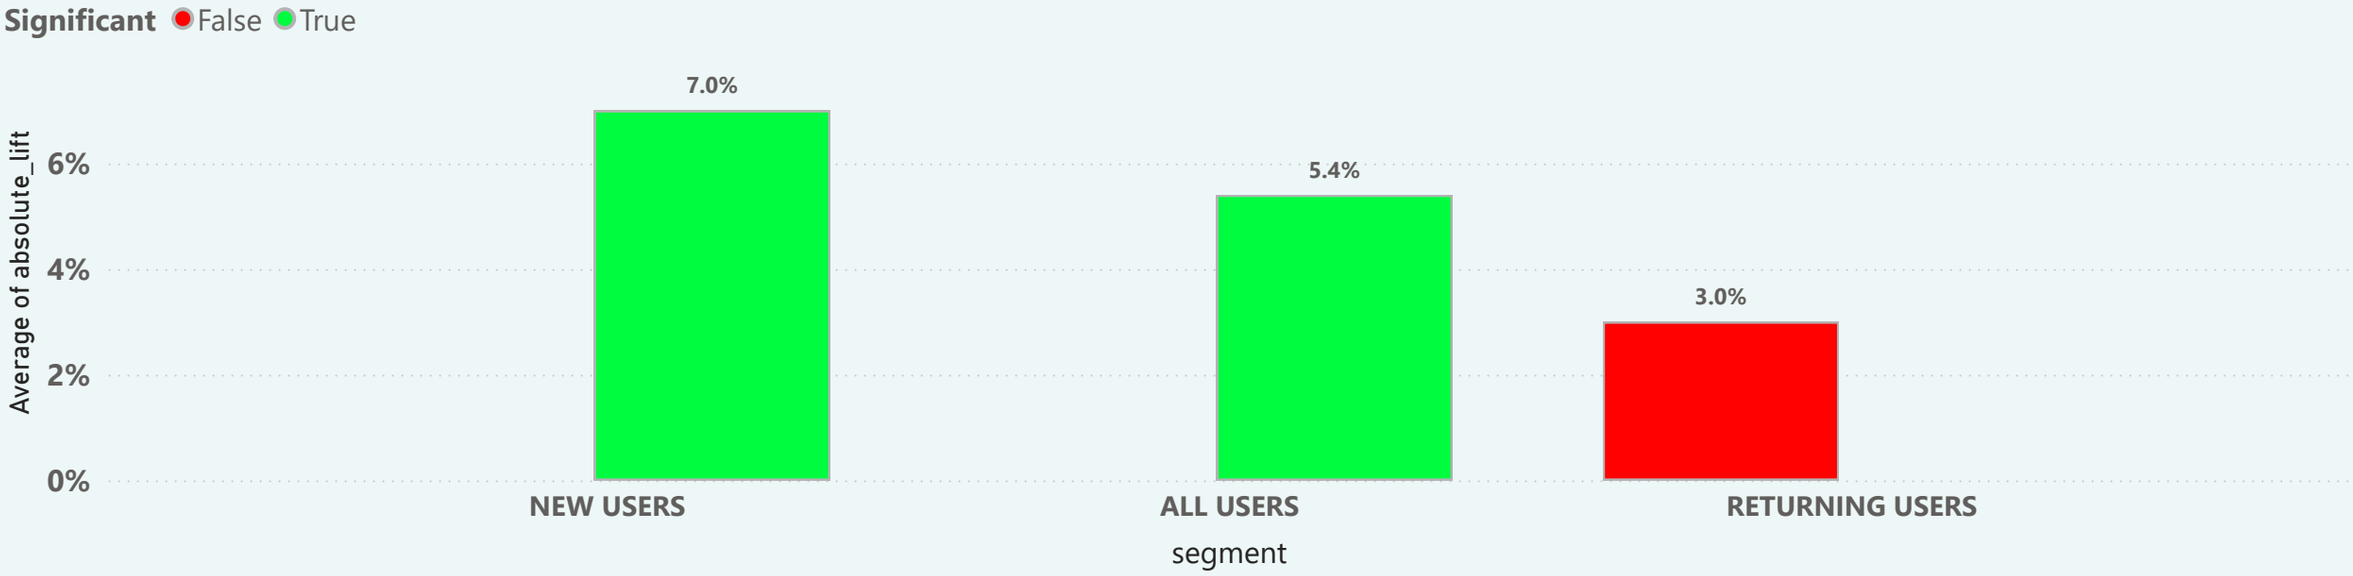
16.61

Chi-square stat — new users

# Statistical Deep Dive

| segment | Control | Test | absolute_lift | relative_lift_pct | chi2_stat | CI Low | CI High | p_value | significant | verdict |
|---|---|---|---|---|---|---|---|---|---|---|
| NEW USERS | 29.53% | 36.53% | 7.0% | 23.7 | 16.61 | 0.04 | 0.10 | 0.00005 | True | SIGNIFICANT ✓ |
| ALL USERS | 38.04% | 43.44% | 5.4% | 14.2 | 15.10 | 0.03 | 0.08 | 0.00010 | True | SIGNIFICANT ✓ |
| RETURNING USERS | 50.80% | 53.80% | 3.0% | 5.9 | 1.80 | -0.01 | 0.07 | 0.17925 | False | NOT SIGNIFICANT ✗ |

## Absolute Lift by Segment

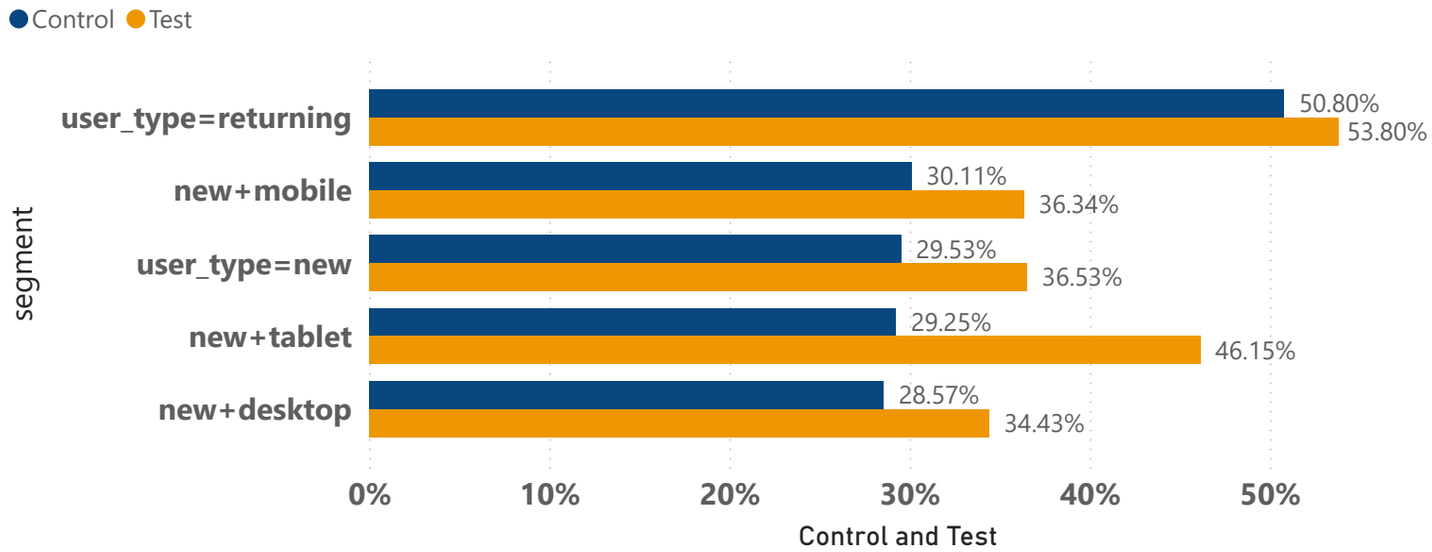


**95% CI for new users: [+3.6pp, +10.4pp] — does not include zero, confirming significance**

**Returning users CI: [-1.4pp, +7.4pp] — crosses zero, effect indistinguishable from chance**

# Segmentation Breakdown

## Retention: Test vs Control (New vs Returning Users)



| Segment | Lift (%) | p-value | Significant |
|---|---|---|---|
| device=desktop | 4.8% | 0.04 | True |
| device=mobile | 4.7% | 0.01 | True |
| device=tablet | 11.9% | 0.01 | True |
| new+desktop | 5.9% | 0.05 | True |
| region=east | 6.5% | 0.02 | True |
| region=north | 3.4% | 0.18 | False |
| region=south | 8.2% | 0.00 | True |
| region=west | 3.7% | 0.23 | False |

## Device Filter

- ☐ device=desktop
- ☐ device=mobile
- ☐ device=tablet

## Region Filter

- ☐ region=east
- ☐ region=north
- ☐ region=south
- ☐ region=west

## New Users — Tablet Lift

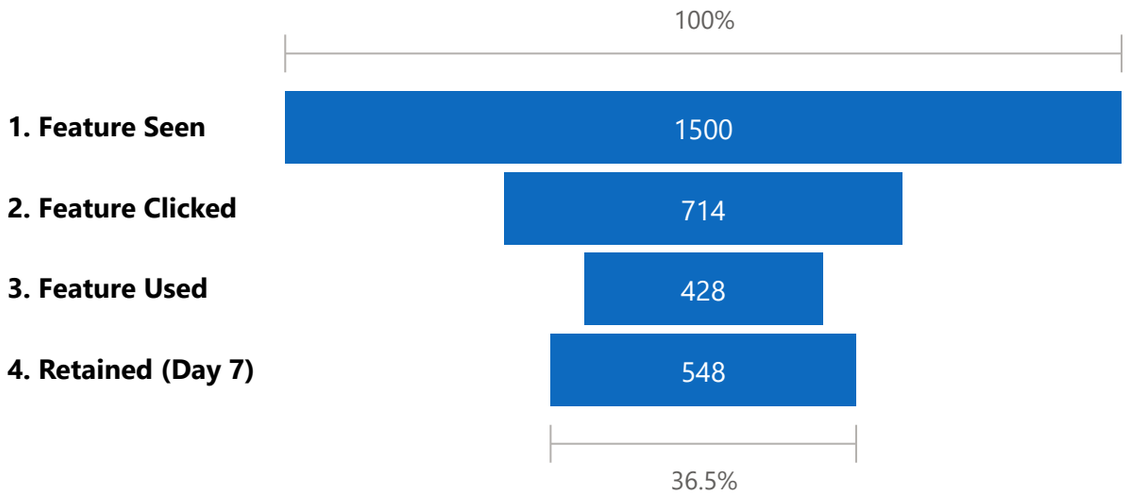
11.9%

Tablet Lift (New Users)

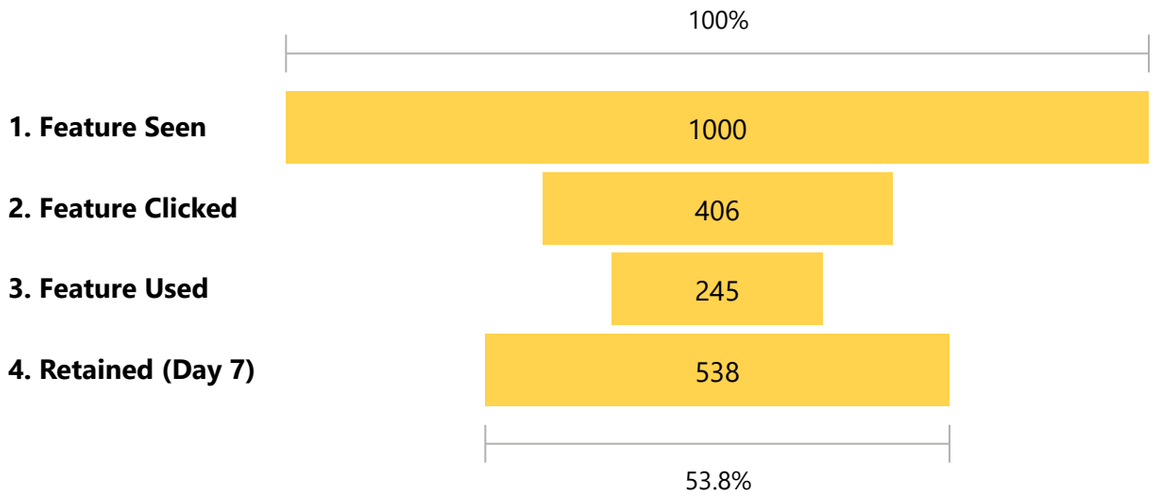
**Highest observed lift across all segments**

# Adoption Funnel

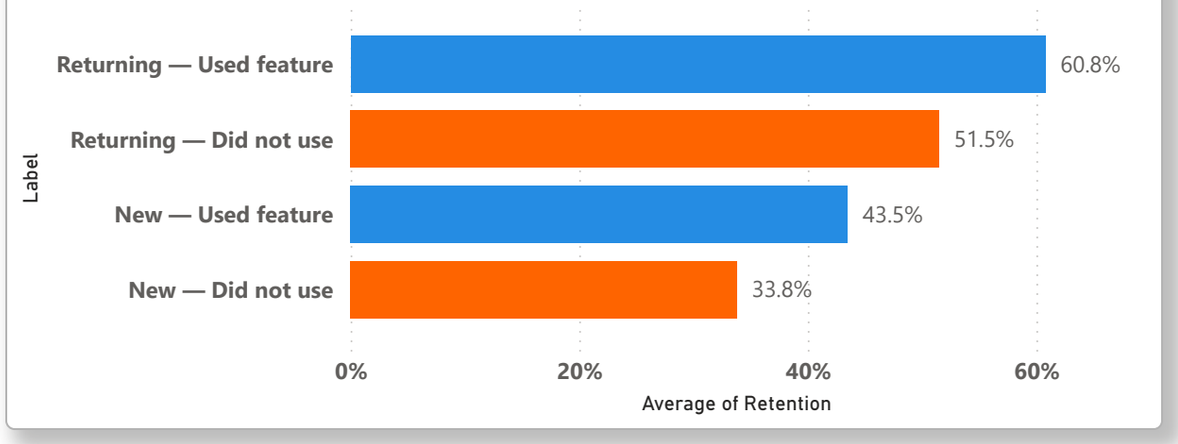
## New Users — Adoption Funnel (Test Group)



## Returning Users — Adoption Funnel (Test Group)



## Impact of feature usage on retention



**New users who completed the feature retained at 43.5% vs 33.8% — a +9.7pp uplift from feature use**

**Returning users: 60.8% vs 51.5% — a +9.3pp uplift, but A/B test lift was not significant overall**
